

# Assembly instructions for the Double Engine Shed

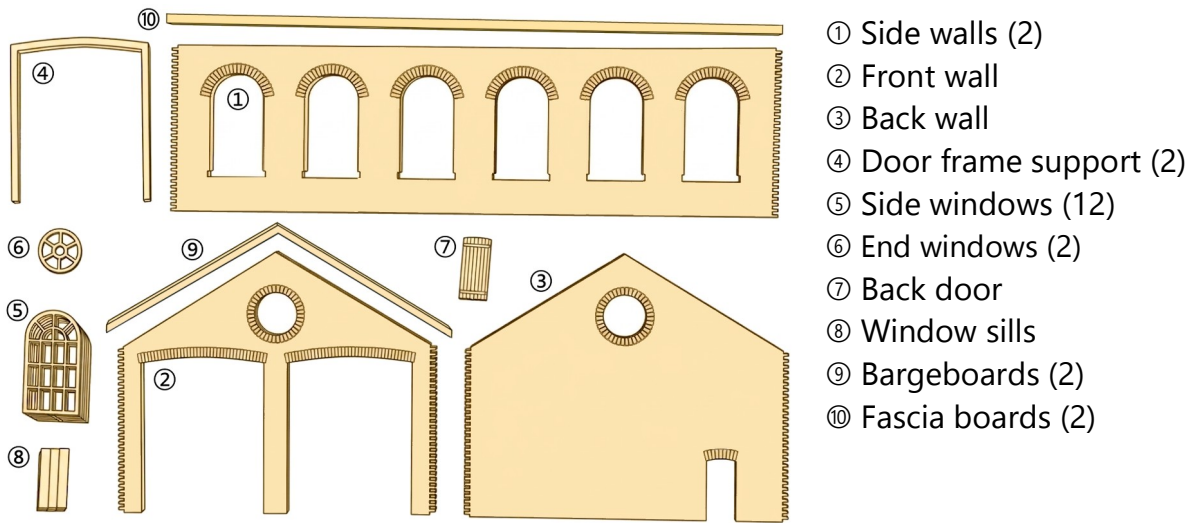

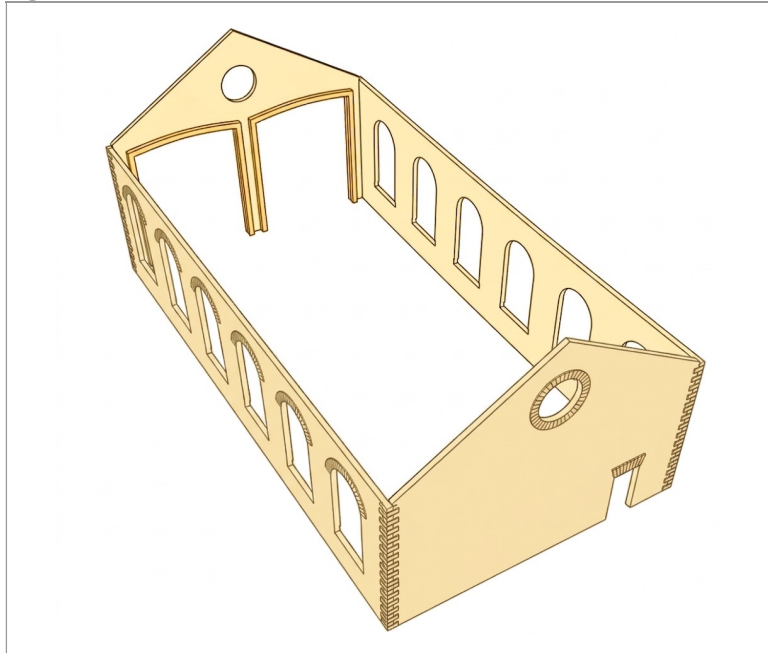

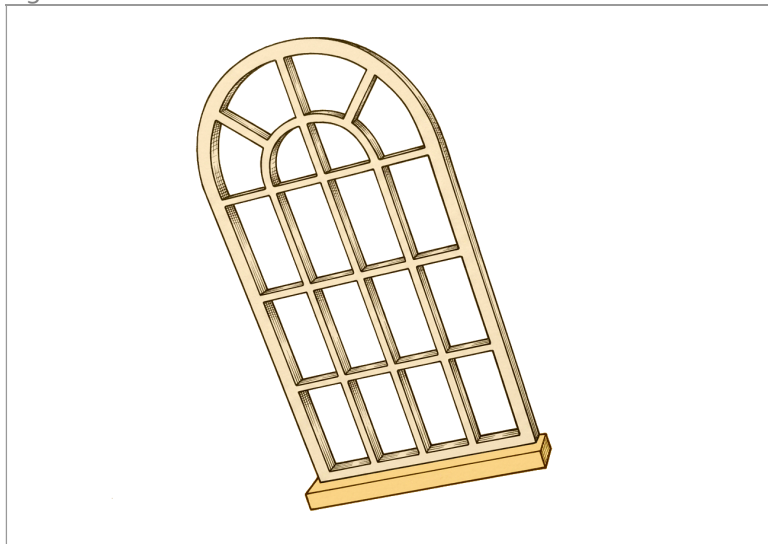

Figure 1

Attach the side walls ① to the front wall ② and the back wall ③. Ensure the structure is square on all four corners.

Attach the door frame supports ④ to the inside of the front wall ②

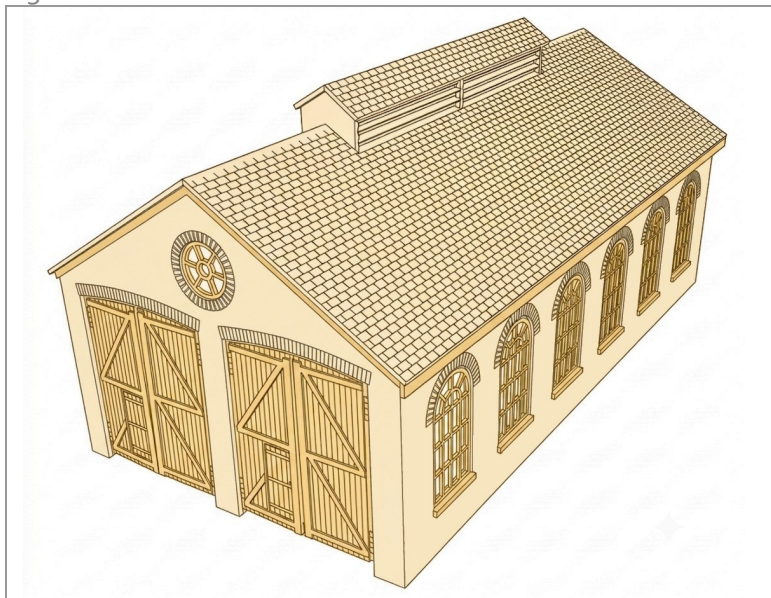

Figure 2

Attach the window sills ⑧ to the windows ⑤.

This would also be a good stage to cut and fix the clear PVC sheeting to the inside of the side windows ⑤ and the end windows ⑥.

Figure 3

Attach the side windows ⑤ and the end windows ⑥ to the building.

Attach the fascia boards ⑩ and bargeboards ⑨ to the building.

Attach the two sets of double doors to the building.
